SUBJECT INDEX, VOLUME 25

A

PAGE

A method for assessing herbicide performance in small plot experiments 386
A method for simulating subsurface disposal of herbicides 368
Absorption and translocation of terbutryn and fluometuron in cotton (*Gossypium hirsutum*) and snapbeans (*Phaseolus vulgaris*) 499
Accelerated after-ripening for overcoming seed dormancy in grass weeds 473
Adenostoma spp. response to several herbicides 188
Adsorption, desorption, and leaching of nitrofen and oxyfluorfen ...97
Adsorption, mobility, and degradation of cyanazine and diuron in soils 401
Aerial spraying of mixed brush, effect on range forage production and comsumption 48
After-ripening, accelerated for overcoming seed dormancy 473
Alachlor and gibberellic acid interaction on corn tissues 197
Alachlor, controlled release for weed control in nursery stock 175
Alachor injury to potato 482
Alkylarsines, generation from soil 412
Allelopathic potential, assessment in *Avena* germ plasm 224
An assessment of allelopathic potential in *Avena* germ plasm 224
Anoda, spurred, competition in cotton 151
Asphalt, herbicide phytotoxicity, movement and persistence 426
Atrazine, detoxification in Gramineae subfamilies 212
Atrazine on soybean tolerance to metribuzin 115
Atrazine persistence in the field, as influenced by pH 515
Atrazine resistance in lambsquarters and pigweed 316
Atrazine, uptake from soil, effect of urea 460
Avena germ plasm, assessment of allelopathic potential 224

B

Bactra verutana for control of purple nutsedge 13
Barley, selectivity of dichlofop methyl 382
Barnyardgrass, ecological effects on soybeans 128
Bentazon, control of redroot pigweed 506
Bentazon translocation in common cocklebur 241
Bentazon uptake and translocation 309
Bermudagrass, glyphosate toxicity 448
Bermudagrass, penetration, translocation, and toxicity of glyphosate.396
Bermudagrass turf, weed control of winter annuals 145
Biocontrol of purple nutsedge by *Bactra verutana* Zeller in a greenhouse 13
Biology of sourgrass and its competition with buffelgrass and guineagrass 171
Bluegrass, annual, effect of tricalcium arsenate formulations 364
Board of directors, major actions, February, 1977 526
Brush, mixed, effect of spraying on production and consumption of range forage 48
Buffelgrass, competition with sourgrass 171
Burclover, California, natural selection during germination 495
Business meeting, February 1977, minutes 524

C

Chaparral vegetation, persistence of 2,4-D and 2,4,5-T 423
^{60}Co radiation on herbicides in aqueous solution 200
Cocklebur, common, bentazon translocation 241
Cold tolerance of quackgrass and johnsongrass rhizomes 348
Combinations of trifluralin and metribuzin on soybeans 88
Committee report, necrology 1976 524
Comparative persistence of dinitroaniline type herbicides on the soil surface 373
Competition, intraspecific, of purple nutsedge 477
Competition, intraspecific, on johnsongrass 293
Competition of late-emerging weeds with sugarbeets 168
Competition of prickly sida with cotton 106
Competition of sourgrass with buffelgrass and guineagrass 171
Competition of spurred anoda, velvetleaf, prickly sida, and venice mallow in cotton 151
Control of annual bluegrass, effects of tricalcium arsenate formulations 364
Controlled release of alachlor for weed control in nursery stock ...175
Corn, growth affected by mefluidide 360
Corn tissues, alachlor and gibberellic acid interaction 197
Cotton, competition of various weed taxa 151
Cotton, effect of height of herbicide application 492
Cotton, prickly sida competition 106
Cotton response to cultivation 132
Cotton, SAN 6706 on 60
Cotton, terbutryn and fluometuron on 499
Cultivation, minimum, of sugarcane 431
Cultivation, response of cotton 132
Cyanazine, adsorption, mobility and degradation in soils 401

D

Degradation and leaching of methazole in soil 304
Desmedipham phytotoxicity to sugarbeets (*Beta vulgaris*) under constant versus variable light, temperature, and moisture conditions 407
Detoxification of atrazine in three Gramineae subfamilies 212
Dicamba mobility in soil columns 159
Dichlofop methyl, selectivity among wheat, barley, wild oat and foxtail 382
Differential activity of three diphenyl ether herbicides 465
Differential cold tolerance of quackgrass and johnsongrass rhizomes 348
Dinitroaniline herbicides for weed control in peas 256
Dinitroaniline herbicides, persistence in soil 373
Dinitroaniline herbicides, physiology and mode of action 79
Dinitroaniline herbicides to control johnsongrass in soybeans 264
Dinitroanilines, degradation in soil 247
Dinoseb and oxadiazon interaction with stem rot in peanuts 260
Diphenamid metabolism in pepper and an ozone effect. I. absorption, translocation, and the extent of metabolism 324
Diphenamid metabolism in pepper and an ozone effect. II. herbicide metabolite characterization 331
Diphenyl ether herbicides, differential activity 465
Disposal of herbicides, subsurface 368
Diuron, adsorption, mobility, and degradation in soils 401
Diuron and monuron interaction to produce superoxide radical from paraquat 298
Dogbane, hemp, and common milkweed, influence of surfactants on glyphosate toxicity 275
Dormancy of prickly sida seed, effect of growth regulators 233
2,4-D mobility in soil columns 159
2,4-D, persistence in chaparral vegetation and soil 423

E

Ecological effects of barnyardgrass on soybeans in a greenhouse ...128
Effect of atrazine on soybean tolerance to metribuzin 115
Effect of height of directed applications of herbicides in cotton (*Gossypium hirsutum*) 492
Effect of herbicide treatments on overseeded putting green turf ...343
Effect of herbicides on in vivo nitrate and nitrite reduction 18
Effect of tricalcium arsenate formulations on control of annual bluegrass (*Poa annua*) 364
Effect of trifluralin and metribuzin combinations on soybean tolerance to metribuzin 88
Effects of ^{60}Co radiation on herbicides in aqueous solution 200
Effects of growth regulators and gibberellic acid on 2,4,5-T translocation 36
Effects of herbicides on diseases of rice (*Oryza sativa*) 441
Effects of temperature and relative humidity on the toxicity of glyphosate to bermudagrass (*Cynodon dactylon*) 448
Electrolytic conductivity—a rapid measure of herbicide injury 352
Equipment for separating weed seed from soil 41
Establishment of *Rhinocyllus conicus* on milk thistle in southern California 288

Ethofumesate control of winter annual grass weeds in Italian ryegrass 252
Evaluation of herbicides in no-tillage production of burley tobacco (*Nicotiana tabacum*) 511

F

Factors involved in alachlor injury to the potato (*Solanum tuberosum*) 482
Fall panicum interference in peanuts 43
Fenac, effects on sugarcane production 431
Flufenprop-methyl, response of wheat and wild oat 355
Fluometuron adsorption and translocation in cotton and snapbeans 499
Fluometuron, MSMA, and propanil toxicity to soybeans 101
Fonofos, effect on distribution and metabolism of ^{14}C-terbacil in peppermint 27
Forest conversion, effect on pine establishment, soil moisture, and understory vegetation, using herbicides 521
Forest, persistence of 2,4,5-T 417
Foxtail, green, selectivity of dichlofop methyl 382
Foxtail, longevity in undisturbed sites 66

G

GA and SADH influence on napthalam uptake 142
Generation of alkylarsines from soil 412
Germination of seeds of common yarrow (*Achillea millefolium*) and its herbicidal control 456
Gibberellic acid and alachlor interaction on corn tissues 197
Gibberellic acid and growth regulator effects on 2,4,5-T translocation 36
Glyphosate control of weeds in soybeans 135
Glyphosate, growth responses induced in sorghum and wheat 238
Glyphosate, movement and activity in purple nutsedge 268
Glyphosate on bermudagrass 396
Glyphosate toxicity to bermudagrass 448
Glyphosate toxicity to common milkweed and hemp dogbane as influenced by surfactants 275
Gramineae subfamilies, atrazine detoxification 212
Grass weed, winter annual, control in Italian ryegrass with ethofumesate 252
Grass weeds, overcoming seed dormancy 473
Growth regulator and gibberellic acid effects on 2,4,5-T translocation 36
Growth regulators and prickly sida seed dormancy 233
Growth responses in sorghum and wheat induced by glyphosate 238
Guineagrass, competition with sourgrass 171

H

Herbicidal control of common yarrow 456
Herbicide evaluation on no-tillage, burley tobacco 511
Herbicide evaluation on saltcedar 1
Herbicide incorporation uniformity and soil sample variation 193
Herbicide injury measurement using electrolytic conductivity 352
Herbicide metabolite characterization, diphenamid 331
Herbicide performance in small plot experiments 386
Herbicide phytotoxicity, movement, and persistence in asphalt 426
Herbicide-treated woody ornamental plants, rooting capacity 452
Herbicide treatments on turf 343
Herbicides, effect of ^{60}Co radiation in aqueous solution 200
Herbicides, effect of height of application on cotton 492
Herbicides, effects on rice diseases 441
Herbicides on nitrate and nitrite reduction, in vivo 18
Herbicides on pine establishment 521
Herbicides, response of *Adenostoma spp.* 188
Horsenettle, postemergence and subsurface layered herbicides 5

I

In vitro production of superoxide radical from paraquat and its interactions with monuron and diuron 298
In vivo nitrate and nitrite reduction, herbicide effects 18
Influence of fonofos on the distribution and metabolism of ^{14}C-terbacil in peppermint 27
Influence of GA and SADH on napthalam uptake by wheat and soybean seedlings 142
Influence of postemergence and subsurface layered herbicides on horsenettle and peanuts 5
Influence of soil pH on persistence of atrazine in the field 515
Interactions of oxadiazon and dinoseb with stem rot in peanuts 260
Intraspecific competition of purple nutsedge (*Cyperus rotundus*) under greenhouse conditions 477
Italian ryegrass, winter annual grass weed control with ethofumesate252

J

Johnsongrass control in soybeans with soil-incorporated dinitroaniline herbicides 264
Johnsongrass, intraspecific competition 293
Johnsongrass, phytochromes in rhizomes 229
Johnsongrass rhizomes, cold tolerance 348

K

Knotweed, photosynthetic adaptation 319

L

Laboratory and greenhouse spray chamber 221
Lambsquarters, atrazine resistance 316
Leaching of nitrofen and oxyfluorfen 97
Leaf-disk test for potato tolerance to herbicides 122
Longevity of foxtail taxa in undisturbed sites 66

M

Major actions of the board of directors, WSSA, February, 1977 526
Mallow, venice, competition in cotton 151
Mechanism of atrazine resistance in lambsquarters and pigweed 316
Mefluidide effects on growth of corn (*Zea mays*) and the synthesis of protein by cucumber (*Cucumis sativus*) cotyledon tissue 360
Members, sustaining, WSSA 96, 183, 263, 367, 464, 514
Metabolism of Sandoz 6706 in soybean and sicklepod 9
Methazole degradation in soil 304
Metribuzin and trifluralin combinations on soybean tolerance to metribuzin 88
Metribuzin persistence in soil 55
Metribuzin, soybean tolerance as affected by atrazine 115
Milkweed, common, and hemp dogbane, influence of surfactants on glyphosate toxicity 275
Minutes of business meeting, WSSA, February 1977 524
Mobility of dicamba, picloram and 2,4-D in soil columns 159
Mode of action and physiology of dinitroaniline herbicides 79
Mode of action of SAN 6706 on soybean and cotton, single leaf cells 60
Monitoring photosynthesis to measure translocation of bentazon in common cocklebur 241
Monuron and diuron interaction to produce superoxide radical from paraquat 298
Moonflower, purple, life cycle 163
Movement and activity of glyphosate in purple nutsedge 268
MSMA, fluometuron, and propanil toxicity to soybeans 101

N

Naptalam uptake by wheat and soybean seedlings as affected by GA and SADH 142
Natural selection during germination of wild oat (*Avena fatua*) and California burclover (*Medicago polymorpha* var. *vulgaris*) populations 495
Necrology committee report, 1976 524
New note 65, 144, 468
Nitrate reduction, herbicide effects 18
Nitrite reduction, herbicide effects 18
Nitrofen and oxyfluorfen; adsorption, desorption and leaching 97
Nitrofen and oxyfluorfen, and uptake and translocation 111
No-tillage, tobacco production using herbicides 511
Nursery stock, weed control with alachlor 175
Nutsedge, purple, biocontrol 13
Nutsedge, purple, glyphosage movement and activity 268
Nutsedge, purple, intraspecific competition 477
Nutsedge, yellow, control in turfgrass 487

O

Oat, wild natural selection during germination 495
Oat, wild, response to flufenprop-methyl 355
Oat, wild, selectivity of dichlofop methyl 382
Oxadiazon and dinoseb interaction with stem rot in peanuts 260
Oxyfluorfen and nitrofen; adsorption, desorption, and leaching 97
Oxyfluorfen and nitrofen, uptake and translocation 111
Ozone effect in diphenamid metabolism in pepper 324, 331

P

Panicum, fall, interference in peanuts 43
Paraquat reversal of scotoactive stomatal behavior 469
Paraquat, superoxide radical production from 298
Pea cultivars, susceptibility to trifluralin 23
Peanuts, fall panicum interference 43
Peanuts, florunner, response to planting dates, herbicide sequences, and systemic insecticides 203
Peanuts, postemergence and subsurface layered herbicides 5
Peanuts, stem rot, interaction of oxadiazon and dinoseb 260
Peas, weed control with dinitroaniline herbicides 256
Penetration, translocation, and toxicity of glyphosate in bermuda-grass (*Cynondon dactylon*) 396
Peppermint, influence of fonofos on ^{14}C-terbacil in 27
Peppers, diphenamid metabolism 324, 331
Persistence of 2,4-D and 2,4,5-T in chaparral vegetation and soil ...423
Photosynthesis monitoring to measure translocation of bentazon in common cocklebur 241
Photosynthetic adaptation to light intensity in sakhalin knotweed (*Polygonum sachalinense*) 319
Physiology and mode of action of dinitroaniline herbicides 79
Phytochrome distribution in johnsongrass rhizomes 229
Phytotoxicity of tebuthiuron 390
Picloram mobility in soil columns 159
Pigweed, atrazine resistance 316
Pigweed, redroot, control with bentazon 506
Potato, alachlor injury 482
Potato variety herbicide tolerance 122
Propanil, fluometruon, and MSMA toxicity to soybeans 101
Pubescence affects spectra and imagery of silverleaf sunflower (*Helanthus argophyllus*) 437
Purple moon flower: emergence, growth, reproduction 163

Q

Quackgrass rhizomes, cold tolerance 348

R

Relative humidity effects on toxicity of glyphosate to bermuda-grass 448
Range forage production and consumption following aerial spraying of mixed brush 48
Redroot pigweed (*Amaranthus retroflexus*) control with bentazon plus additives 506
Response of cotton to cultivation 132
Response of florunner peanuts to planting dates, herbicide sequences, and a systemic insecticide 203
Response of two *Adenostoma* species to several herbicides 188
Rhinocyllus conicus establishment on milk thistle in southern California 288
Rice diseases, effects of herbicides 441
Rooting capacity of herbicide-treated woody ornamental plants ...452

S

SADH and GA influence on naptalam uptake 142
Saltcedar, herbicide evaluation 1
SAN 6706, mode of action in single leaf cells of soybean and cotton 60
Sandoz 6706, metabolism in soybean and sicklepod 9
Sandoz, 6706, uptake and translocation 30
Seed dormancy, overcoming, in grass weeds 473
Selectivity of dichlofop methyl among wheat, barley, wild oat (*Avena fatua*) and green foxtail (*Sertaria viridis*) 382
Sicklepod, sandoz 6706 metabolism 9
Sicklepod, uptake and translocation of sandoz 6706 30
Sida prickly, competition in cotton 151
Sida, prickly, competition with cotton 106
Sida, prickly, seed dormancy as affected by growth regulators 233
Sinking leaf-disk test for potato variety herbicide tolerance 122
Snapbeans, terbutryn and fluometron on 499
Soil, alkylarsines generation 412
Soil, atrazine uptake 460
Soil degradation of three dinitroanilines 247
Soil, methazole degradation 304
Soil, mobility of dicamba, picloram, and 2,4-D 159
Soil, persistence of dinitroaniline herbicides 373
Soil, persistence of metribuzin 55
Soil pH on persistence of atrazine 515
Soil sample variation and herbicide incorporation uniformity 193
Soil, separation of weed seed 41
Soil terminology subcommittee report, WSSA, 1976 94
Soils, tebuthiuron sorption, movement, and dissipation 184
Some factors which influence the toxicity of UHF energy to weed seeds 179
Sorghum growth responses induced by glyphosate 238
Sorption, movement, and dissipation of tebuthiuron in soils 184
Sourgrass biology and competition with buffelgrass and guineagrass 171
Soybean, SAN 6706 on 60
Soybean, sandoz 6706 metabolism 9
Soybean seedlings, naptalam uptake as affected by GA and SADH .142
Soybean tolerance to metribuzin 88
Soybean, tolerance to metribuzin as affected by atrazine 115
Soybean, uptake and translocation of sandoz 6706 30
Soybeans, ecological effects of barnyardgrass 128
Soybeans, johnsongrass control with soil-incorporated dinitroaniline herbicides 264
Soybeans, toxicity of MSMA, fluometruon, propanil 101
Soybeans, weed control in narrow and wide-row 73
Soybeans, weed control with glyphosate 135
Spectra and imagery, of silverleaf sunflow (remote sensing) 437
Spray chamber, laboratory and green house 221
Sprayer, recirculating, application of glyphosate to cotton 135
Stem rot in peanuts, effect of interaction of oxadiazon and dinoseb 260
Stomatal behavior, scotoactive reversal 469
Subcommitte report, soil terminology, 1976 94
Subsurface disposal of herbicides 368
Sugarbeets, competition of late-emerging weeds 168
Sugarbeets, phytotoxicity of desmedipham 407
Sugarcane (*Saccharum*) production with minimum cultivation, fenac, and terbacil 431
Sunflower, silverleaf, pubescence 437
Superoxide radical production from paraquat; monuron and diuron interactions 298
Surfactant influence on glyphosate toxicity to common milkweed and hemp dogbane 275
Susceptibility of pea cultivars to trifluralin 23
Sustaining members, WSSA 96, 183, 263, 367, 464, 514
Synthesis of protein by cucumber as affected by mefluidide 360

T

Tebuthiuron sorption, movement, and dissipation in soils 184
Tebuthiruon, uptake and phytotoxicity 390
Techniques for greenhouse evaluation of herbicides on saltcedar 1
Temperature effects on toxicity of glyphosate to bermudagrass 448
Terbacil, ^{14}C-, effect of fonofos on distribution and metabolism in peppermint 27
Terbacil, effects on sugarcane production 431
Terbutryn absorption and translocation in cotton and snapbeans ..499
Test, leaf-disk, for potato tolerance to herbicides 122
The effect of forest conversion with herbicides on pine (*Pinus* spp.) establishment, soil mositure and understory vegetation 521
The effect of intraspecific competition on the growth and development of johnsongrass under greenhouse conditions 293
The effect of urea on atrazine uptake from soil 460
The persistence of 2,4,5-T in a Pacific Northwest forest 417
The physiology and mode of action of the dinitroaniline herbicides 79
The reversal of scotoactive stomatal behavior in some woody weeds by paraquat and 2,4,5-T 469
Thistle, milk, establishment of *Rhinocyllus conicus*, in southern California 288
Tobacco, burley, effects of herbicides 511
Toxicity of MSMA, fluometruon, and propanil to soybeans 101
Toxicity of UHF energy to weed seeds 179
Translocation and uptake of nitrofen and oxyfluorfen 111
Translocation of bentazon in common cocklebur as measured by monitoring photosynthesis 241
Translocation of bentazon with additives 309
Translocation, penetration, and toxicity of glyphosate in bermuda-grass 396
Tricalcium arsenate formulations on annual bluegrass 364
Trifluralin and metribuzin combinations on soybean tolerance to metribuzin 88
Trifluralin, effects on pea cultivars 23
Turf, herbicide treatments 343
Turfgrass, yellow nutsedge control 487
2,4,5-T, persistence in a Pacific Northwest forest 417
2,4,5-T persistence in chaparral vegetation and soil 423

2,4,5-T reversal of scotoactive stomatal behavior 469
2,4,5-T translocation, effect of growth regulators and gibberellic acid 36

U

UHF energy toxicity to weed seeds 179
Uptake and phytotoxicity of tebuthiuron 390
Uptake and translocation of bentazon with additives 309
Uptake and translocation of nitrofen and oxyfluorfen 111
Uptake and translocation of Sandoz 6706 in soybean and sicklepod .30
Urea, effect of on atrazine uptake from soil 460
Use of single leaf cells to study mode of action of SAN 6706 on soybean and cotton 60

V

Velvetleaf competition in cotton 151

W

Washing equipment for separating weed seed from soil 41
Water and weeds in world food production 338
Weed control in narrow and wide-row soybeans 73
Weed control in nursery stock by controlled release of alachlor 175
Weed control in peas with dinitroaniline herbicides 256
Weed control in soybeans with glyphosate applied in the recirculating sprayer 135
Weed control of winter annuals in dormant bermudagrass turf 145
Weed seed separation from soil 41
Weed seeds, toxicity of UHF energy 179
Weeds and water in world food production 338
Wheat and wild oat response to flufenprop-methyl 355
Wheat growth responses induced by glyphosate 238
Wheat seedlings, naptalam uptake as affected by GA and SADH ...142
Wheat, selectivity of dichlofop methyl 382
Winter annual grass weed control in Italian ryegrass with ethofumesate 252
Winter annual weed control in dormant bermudagrass turf 145
Woody ornamental plants, rooting capacity 452
World food production 338

Y

Yarrow, common, germination of seeds and herbicidal control 456
Yellow nutsedge (*Cyperus esculentus*) control in cool season turfgrass 487
